This great merchandising event is looked forward to by thousands of people in Norwich and vicinity as the one time in the Summer season, when they can select the choicest seasonable and staple merchandise at practically wholesale, and in many instances at below manufacturers' cost.

This annual Factory End Sale is so comprehensive in character, of such magnitude and so replete with real economies that it has become a store institution. A Factory End Sale is just what its name implies—a sale of short lengths, full pieces and surplus stocks of manufacturers. Every manufacturer has these lots—but they are so desirable that it is hard to get them. It took several months to arrange for and select these Factory Ends, but we feel amply repaid for the time spent and labor expended.

Factory End values will be greater than ever this season. Due to existing conditions, manufacturers have given us greater concessions than ever before—and we are making larger reductions on our regular stocks of merchandise. It is without question the greatest economy event of the entire season, for the people of Eastern Connecticut. This advertisement can't begin to cover the magnitude and scope of this value-giving. You must come to the store and see and examine the goods themselves to thoroughly appreciate the values.
